Events of Insecurity, Feb. 2022

Chart: HumAngle Media • Source: ACLED • Created with Datawrapper

Events through the month of February 2022

Violence against civilians describes any action that inflicts harm on civilians involving violence and also describes when civilians are targeted with any violence by an organised armed actor. In the month of February, this constituted the highest number of insecurity events (164), which included attacks, abduction/forced disappearance, and sexual violence.

Battle describes violent events where organised groups engage in a battle. These include armed clashes, as well as non-state actors, overtaking territory. There were 92 cases of this event through the month of February.

Excessive force against protesters describes when individuals are engaged in a peaceful protest during which there is an attempt to disperse or suppress the protest without serious/lethal injuries being reported or the targeting of protesters with lethal weapons. There were 86 cases of this event in February.

Riots refer to mob violence and violent demonstration and describe when rioters violently interact with other rioters, another armed group, or civilians, outside of demonstrations. They occurred 25 times across the month of February.

Explosions/remote violence describes remote explosive, landmine, artillery, or missile attacks as well as air strikes. These occurred 24 times in the month.

Strategic developments involve disrupted weapons use, looting/property destruction, and change in group/activity. These occurred 19 times through February.
